

WALKING AIDS

FT2611 QUAD CANE

WALKING STICK

FT2611 Quad Cane

Walking Stick

Walking sticks are great mobility aids for individuals that don't require the full assistance that a walker or rollator can provide. In most cases, a cane can assist the user in getting up and supporting weight on one or both of their legs.

Product Specifications

Overall Height	77.2 cm - 100.1 cm 30.4" - 39.4"
Base Length	20 cm or 7.9"
Base Width	15 cm or 5.9"
Material	Aluminium
Safe Working Load	120 kg
Overall Weight	2 kg
Country Of Origin	Made in China

Handle

For illustration purposes only

Product Features

- Lightweight Aluminium Frame
- 4 Legged
- Adjustable Height
